Get your business off the ground with our starter cultivation cube facility, a ready to grow environment with fast delivery.

If your business is already blooming, Xtreme Cubes can help you to maximize productivity and take your operations to the next level.

- Cultivation Cubes
- Production / Clean Rooms
- Trim & Drying Rooms
- Restrooms
- Office Complex
- Retail Cubes
- Residential Facilities

SET UP & GROW

Get your business growing and reap the benefits sooner with the turnkey Xtreme Cube™ starter cultivation facility. With our rapid production and install, you can start growing immediately.

Xtreme Cubes provide a turnkey solution for cultivation applications.

Fully modular, Xtreme Cubes are easy to transport by truck to the desired location and can be quickly fork lifted into place to form a permanent structure.

The structure can also be easily dismantled, relocated, reassembled, expanded or reconfigured, giving the owner complete flexibility, with minimal disruption.

Xtreme's starter cultivation cube facility, shown to the left, contains all of the basic elements to begin a growing project. The structure can be easily expanded by adding additional cubes, or can be fully customized with a wide range of options.

The starter cultivation cube facility includes:

- 3 x Flower Rooms (1,152 sq. ft. each)
- 1 x Clone Room with three-tier fixed planters (288 sq. ft.)
- 1 x Vegetation Room with moveable planters (864 sq. ft.)
- 1 x Office Complex (1,152 sq. ft.)
 - 1 x Office
 - 1 x Trim Room
 - 1 x Drying Room
 - 1 x Vault
 - 2 x Restrooms
 - Lockers
- 1 x Production Operation Complex (1,152 sq. ft.)
 - Built-in Freezer (650 sq ft)
 - Room for 10 workstations
 - Controlled area for extraction equipment
- 2 x Controlled Entrances
- 1 x Corridor
- 1 x Utilities Corridor including water, nutrients and light controls

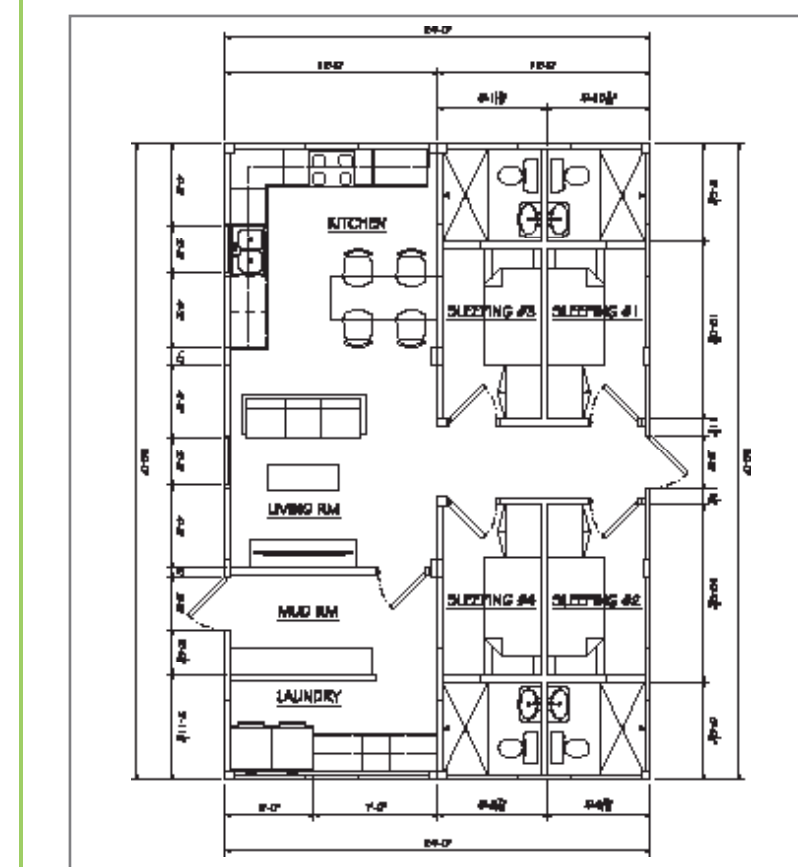

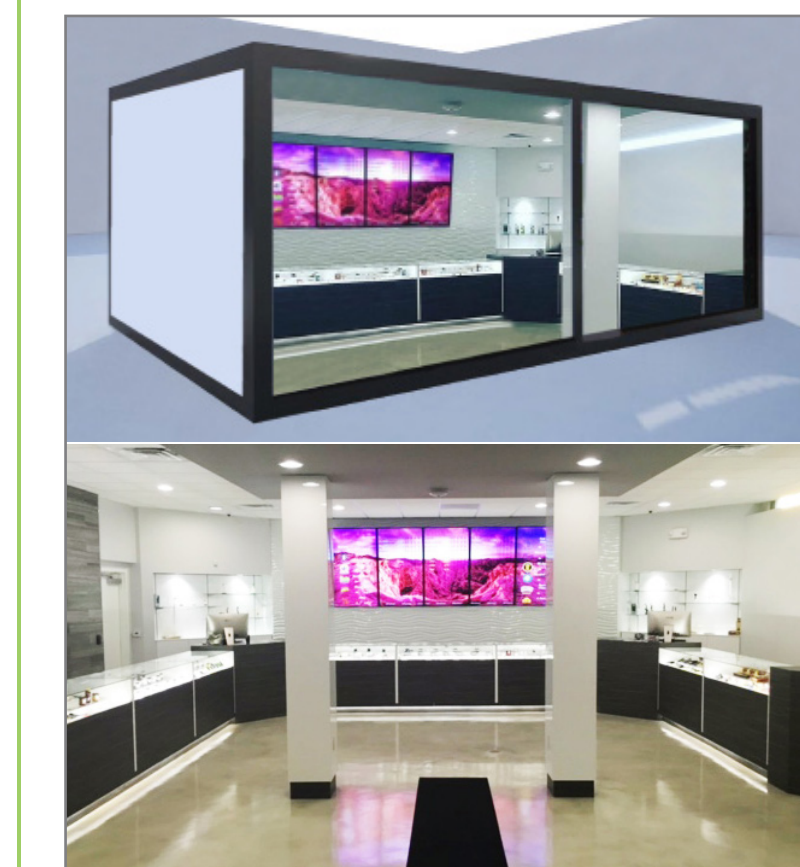

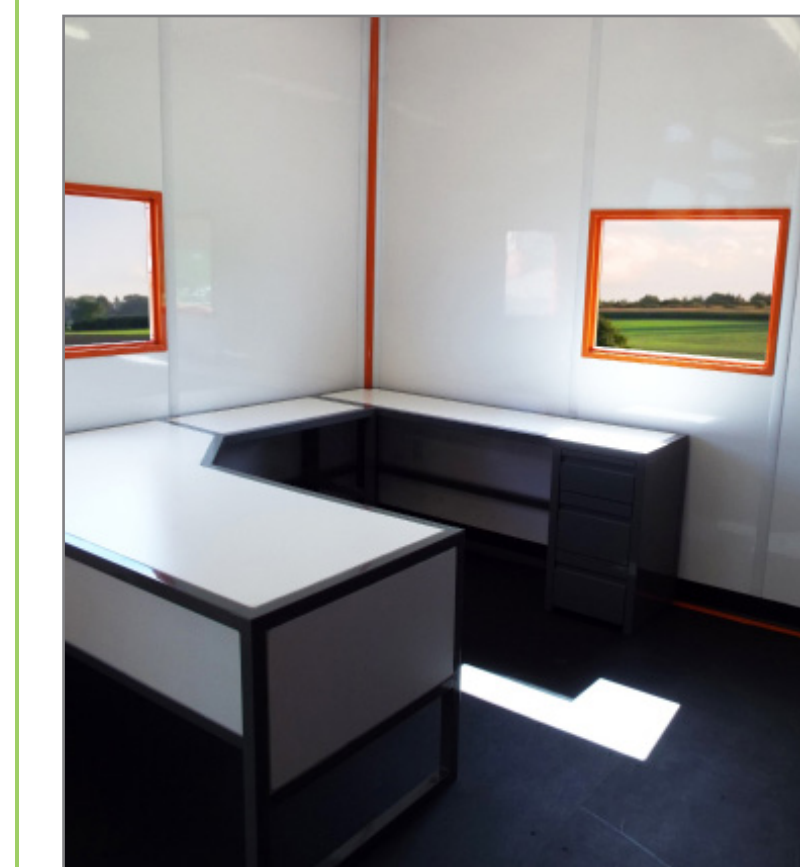

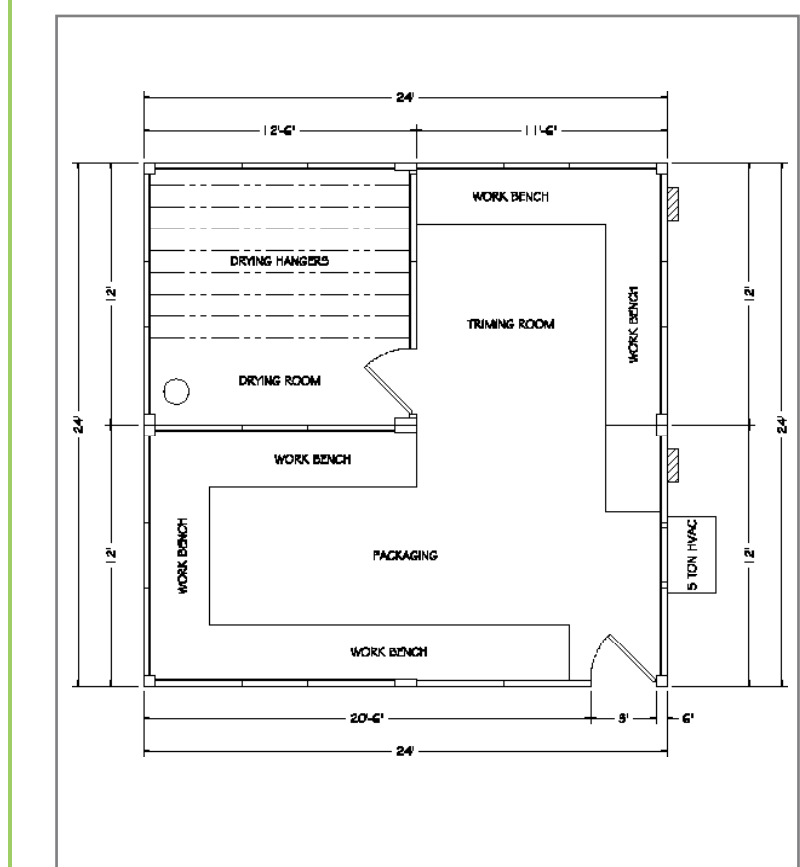

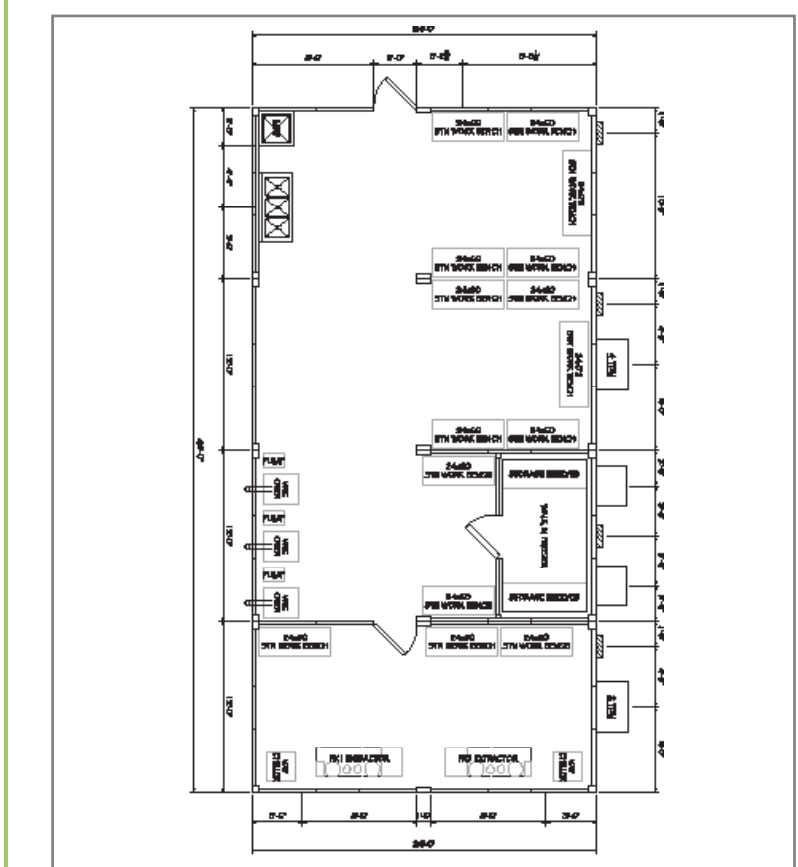

Xtreme cultivation cubes can be set up outdoor as standalone units

GROW YOUR OWN

Design your own Xtreme Cube™ facility to your exact requirements.

- Expand your operations quickly with minimum disruption - additional cubes easily connect to existing structures
- Engineered to withstand geographic load criteria or ambient weather conditions
- Can be used in an existing indoor warehouse or as a standalone exterior structure
- Can be built up to 3 stories
- Can be built for underground use
- Security and surveillance systems available per local jurisdiction requirements

Xtreme cultivation cubes can be set up inside an existing building
